

F-500EA ENCAPSULATOR TECHNOLOGY

F500EA is the highest technology and most proven agent from Hazard Control Technology USA that can prevent, protect and mitigate all classes of fires.

F-500 EA is the only agent on the market today proven to stop thermal build-up, safely extinguish lithium-ion battery fires, and greatly reduce the risk of reignition. Can quickly cool the fire and surrounding buildings with the ability to absorb 6-10 times more heat energy than ordinary water.

Technical Data Sheet

Product	: Portable Fire Extinguisher
Brand	: STARVVO
Model / Item No.	: SX – 60EA
Class Fire	: A - B - C* - D - F/K
Capacity / Volume	: 6.0Kg
Cylinder Size	: Ø160 x 450 mm
Cylinder Weight	: 2.9Kg / 8.1Kg
Agent / Propellant	: F500 Encapsulator Agent / Nitrogen
Working Pressure	: 14 BAR
Test Pressure	: 27 BAR
Cylinder Material / Thickness	: SUS304 / 1.2 MM
Certificate	: Uji Test DAMKAR
